

CARE OF CYBERAMIC COSMETICS

① BRUSH ALL FURRY CHARACTERS WITH A PET BRUSH OR WIG BRUSH AT LEAST ONCE A WEEK. THIS WILL PREVENT A LOT OF PROBLEMS BY LOOSENING DUST AND GREASE BEFORE IT GETS IMBEDDED IN THE FABRIC. CLOTHING CAN BE BRUSHED OFF USING A PIECE OF FOAM RUBBER.

② PIZZA AND SODA STAINS CAN BEST BE REMOVED IF DETECTED BEFORE THEY HAVE A CHANCE TO SINK IN.

CARE AND FEEDING OF WALK-AROUND SUITS

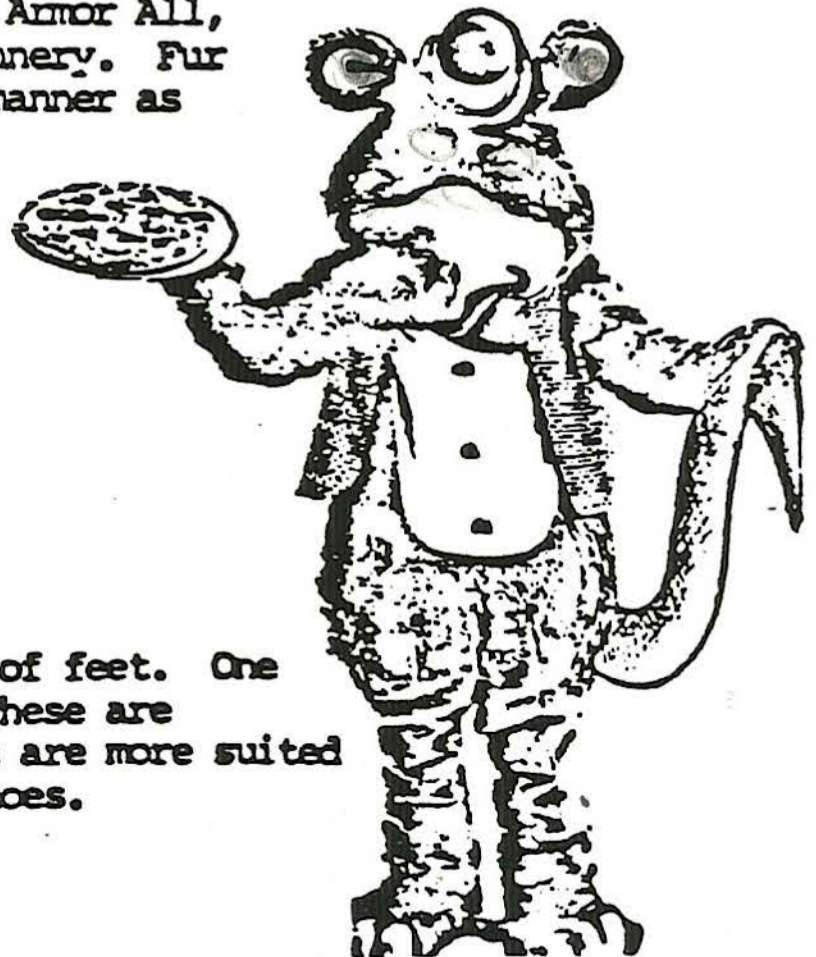

How to Wear

- Hands & Body: Before putting suit on, thread tail through tail hole from inside so as not to stretch hole, and tie white tube belt around waist. Pull cuffs over top edge of hands.
- Feet: ^{*} Do not wear shoes when putting feet on, as it stretches the foot.
- Tail: Try not to drag the tail, carry it whenever possible.
- Head: Handle with lots of T.L.C. and please don't hold or carry it by the teeth or ears.

Cleaning

- Hands & Body: Wash periodically in cold water and tumble dry on low heat.
- Feet: Fur can be cleaned with carpet shampoo and spots removed with spray & wash or a spot remover.
- Tail: Spots can be removed with spot remover or spray & wash. Do not wash in machine.
- Head: Latex can be cleaned with a vinyl & plastic cleaner such as Armor All, Son of a Gun, or the Tannery. Fur is cleaned in the same manner as feet.

BRUSH FUR AREAS OF SUIT WITH A WIRE BRUSH
FREQUENTLY TO KEEP IN GOOD CONDITION

The walk-around suit comes with two different pairs of feet. One pair is made of a soft material and is designed to be worn over the shoes. These are good for wearing outside. The feet with soles are more suited for indoor use and are worn with socks only - just like shoes.

Harmony Howlette

Head: Harmony's wig is very painstakingly attached, so please be careful with it! It is pinned only to the front of her head, so lift back of wig only, from back of head to remove back of head. Then be sure to fit wig back down over head when putting back together.

Harmony's eyelids are pink, glue her red + silver eyelashes to her lids with contact cement.

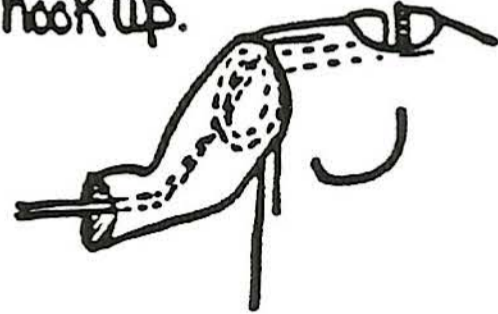

Pin Harmony's hat to the front of her wig just behind her ears.
Tie her bandana at the side.

Body: Be sure to fit mech. arm fully inside foam arm, with black shoulder ring inside arm. There is an extra velcro closing at very lower back edge - Fasten closed inside air hookup. Clothes are all in one piece, just put on & velcro closed in the back.

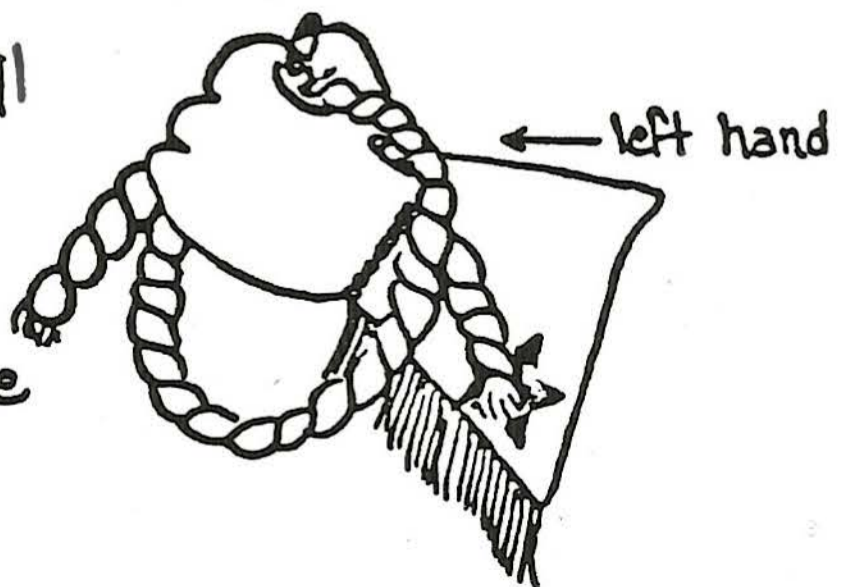

Gloves are worn over shirt sleeves. Star decoration is on the outside lower corner of cuff

Guns are to remain in her holsters at all times.

She holds her microphone in her right hand and her lasso in her left. Bend her fingers around them and safety pin.

Staple the end of microphone cord to base board near body.
